The C9 is a very good engine. There is also a C9S (came out in 2007) you want to avoid this engine at all cost. The main problem with the C7 and C9 (and not really a problem) is the HEUI fuel system. It uses engine oil to create high pressures to actuate the fuel injectors. Dirty oil (lack of oil changes) can cause problems and if the HEUI pump ...

RG-31 Nyala - Wikipedia

The EZ30D engine had one exhaust port per cylinder head and three catalytic converters: one in each of the left and right exhaust manifolds and another in the mixing chamber. The E-OBD system monitored the operation of the front catalytic converters. The EZ30D engine was fitted with a dual stage exhaust system. At higher engine loads, i.e. when exhaust pressure reached around 2.2 psi, a ...
