This nerve can cause an electric shock-like sensation by striking the medial epicondyle of the humerus from posteriorly, or inferiorly with the elbow flexed. The ulnar nerve is trapped between the bone and the overlying skin at this point. This is commonly referred to as bumping one's "funny bone". This name is thought to be a pun, based on the sound resemblance between the name of the bone of the upper arm, the "humerus", and the word "humorous". Alternatively, according to the Oxford English D

But the Wish-Bone story started with just a single Italian recipe some 60 years ago. In 1945, returning World War II veteran Phillip Sollomi opened a family style chicken restaurant in Kansas City, Missouri and the Wish-Bone was open for business. The restaurant was an immediate success, but it was in 1948 that the Wish-Bone found it's true ...
