The preliminary reports of rare cases of ARIA like phenomenon being detected in large cohorts being screened for clinical trials suggest that spontaneous ARIA-E may occur rarely in the natural history of AD, and perhaps more commonly in patients with genetic risk factors for high vascular amyloid burden and/or presumed CAA [4, 14]. The low incidence of spontaneous ARIA-E observed in clinical ...

Introduction. Mindfulness is an intrinsic and modifiable capacity of the human mind. As a state and process of consciousness, it is most commonly defined as “the awareness that emerges through paying attention on purpose, in the present moment, and nonjudgmentally to the unfolding of experience moment by moment” (p. 145). 1 Mindfulness meditation, in turn, represents a systematic framework ...
