The Department of Mechanical Engineering upholds the ideals of diversity and inclusion at our university. We welcome all students to learn to the best of their abilities on our campus in an environment free from racism, sexism, bigotry, harassment, and oppression. We uphold these ideals ourselves, and strongly encourage our colleagues across the university both to uphold these ideals, and to teach them when appropriate to our students as a way to move human society forward.

Mechanical engineering programs usually include courses in mathematics and life and physical sciences, as well as engineering and design. Mechanical engineering technology programs focus less on theory and more on the practical application of engineering principles. They may emphasize internships and co-ops to prepare students for work in industry.
